STEPHANIE WYATT

New York, NY | stephwyatt08@gmail.com | linkedin.com/in/stephanie-wyatt25 | github.com/stevwya77

EDUCATION

Stanford University **Expected June 2027**
B.S. Computer Science, Computational Biology Track *Stanford, CA*
Schenectady County Community College **2022**
A.S. Computer Science *Schenectady, NY*
CompTIA Security+ Certified **2026**
AWS Certified Cloud Practitioner (CLF-C02) **2026**
CodePath AI 301: Open Source Capstone (in progress) **2026**

PROJECTS

Tracy GDB Visualizer | *Demo: stevwya77.github.io/img/tracy-demo.mp4* **Apr 2025 – Jun 2025**
Lead Developer *1st Place and Microsoft Award, Stanford CS 194 Senior Capstone Competition*

- Architected a full-stack debugging interface in TypeScript, Python, and C, pairing a React frontend for source code and memory layout visualization with a Flask backend streaming live GDB state via pygdbmi
- Engineered session state management with low-level register tracking to monitor stack updates, breakpoint management, and segfault detection in real time
- Integrated an AI assistant using context management to deliver runtime error diagnosis and context-sensitive debugging hints

EXPERIENCE

Software Engineer **Apr 2026 – Sep 2026**
Develop for Good *Remote*

- Overhauled website layouts and platform architecture for nonprofit clients, integrating interactive maps and search features to increase engagement by 30%
- Configured Google Analytics user funnels to optimize end-user navigation paths, driving a 35% increase in user flow efficiency

Operations Technician **Sep 2024 – Jun 2025**
Stanford University *Stanford, CA*

- Deployed, relocated, and decommissioned computing, peripheral, and A/V hardware across campus facilities, diagnosing hardware failures and coordinating warranty repairs with external vendors
- Resolved incoming trouble tickets and maintained asset inventory accuracy through tagging, retrieval, data entry, and secure decommissioning, coordinating with first-tier support and student technical staff

Service Delivery Analyst **May 2019 – Sep 2022**
Goldman Sachs *Cohoes, NY*

- Automated role-based provisioning for 15,000+ employees across 24 global offices, cutting provisioning time and overhead by 80%
- Developed an internal web interface using HTML, CSS, JavaScript, and REST APIs that surfaced trending knowledgebase articles for IT incident response
- Administered user provisioning, access control, and identity management across enterprise systems through REST API integrations and Active Directory

Service Desk Analyst **Sep 2018 – May 2019**
Zones, Inc. *Menands, NY*

- Delivered NYS ITS Level I support for 53 state departments across MacOS, Windows, and Linux, covering software applications, networking, multi-factor authentication, and hardware troubleshooting
- Supported and maintained TCP/IP networks including DHCP, DNS, and VPN configurations using Linux command-line utilities
- Administered ServiceNow ticketing and developed automated resolution scripts in Python to manage, prioritize, and resolve 100+ technical requests per day within 2–5 minute SLA guidelines

ADDITIONAL EXPERIENCE

AI Coding & Technical Evaluator **Jun 2026 – Present**
DataAnnotation *Remote*

- Audit and correct Python, C/C++, and JavaScript model output for logic errors, algorithmic edge cases, and multi-step reasoning accuracy

TECHNICAL SKILLS

Languages: Python, Java, TypeScript, JavaScript, C/C++, SQL, R
Frameworks & Web: React, Next.js, Node.js, Flask, REST APIs, HTML/CSS, Bootstrap
Systems & Cloud: AWS, Linux, Windows, MacOS, Active Directory, VMware, Elasticsearch, TCP/IP, DHCP, DNS, VPN, ServiceNow
Tools & Data: Git, GDB, Postman, NumPy, pandas, scikit-learn, Apache Spark | Familiar: Go, Rust, MATLAB
